HARVEST HOME

Beautiful Services Yesterday at the Third Street M. E. Church

The Harvest Home services at the Third Street M. E. Church yesterday were a decided success in every particular.

The members and friends of this Church regard Harvest Home as one of the best services of the year, and each year seems to improve on the one previous.

This being an especially fruitful year, the decorating committee were able to make a profuse display of the fruit of the field, garden and orchard, and the scheme of decoration was carried out in a very tasteful manner, so that the old Church presented an appearance that would bring a song of joy and praise into the heart of anyone who looked upon it.

To Mr. John Walsh, Chairman of the Committee on Decorations, much praise is due for the plan and success of the decorations.

The services, both morning and evening, were largely attended, by not only the local congregation, but by members from other Churches.

The Pastor, Rev. G. W. Bunton, was at his best, and delivered two of the best sermons of his ministry at these services. The sermons were in harmony with the occasion, and by his earnestness and eloquence he impressed his hearers with many practical points on the law of the harvest and the surety that "whatsoever we sow that shall we also reap."

The chorus choir was at its best and very effectively rendered the beautiful anthems of Praise and Thanksgiving.

Altogether, it was a day that will live in joyful remembrance and every one will be able to more fully appreciate the wonderful and lavish manner with which the Heavenly Father bestows his blessings.

NEAR Cape Hatteras a few days ago a colony of life-preservers and other flotsam came ashore. Some are marked "Caswitz, Rettunysyurcer, G. R. P., No. 108,341." Others are stamped "Sealanian." Two bear the name "Smeskf." A search among marine records has failed to reveal any names that correspond with those on the life-preservers. Evidently, these things have just made their way through the earth, belonging to the Russian Navy which Admiral Togo started journeying in the Sea of Japan.

THE exclusion of Japanese children from the Public Schools of San Francisco is one of the results of the earthquake, which laid low many of the schools and which has resulted in overcrowding. As a consequence of the movement for the segregation of the Japanese pupils from the white, there have been annoying agitations, which will not, in the end, cause the exclusion of the Japanese from the educational opportunities offered by the city. At the request of Ambassador Aoki, Secretary Root will take up with the California school authorities the school question. Assurances have been given the Japanese Ambassador that there is no occasion for the belief that there is a widespread anti-Japanese feeling in the United States. Its existence in California is recognized. But the Government stands ready to enforce the rights of the foreigners, to adjust any reasonable grievances that may be presented. It is not believed that a clear understanding of the subject will permit any serious difficulties to arise between the two Nations.

R. B. LOVEL, THE LEADING GROCER,

Wholesale and Retail.

THIS is the way Colonel LITTLEJOHN of The Grayson Tribune puts it—

"KEHOE got a Public Building for Maysville, and every man in town except the Postmaster and Janitor is ashamed of it. It is called 'the Maysville Postoffice,' but really it is only the headquarters for the loafers of Plumville, and even the Mail Carriers slip in the back way when entering it."

THE Women's Christian Temperance Union is just now reveling in a good sized duck fit because the Order of Rechabites, the oldest temperance organization in the country, favors the restoration of the Canteen at Army Posts. The W. C. T. U. is no doubt a very worthy institution, but its members certainly lack one thing—Common Sense. Their successful fight against the Canteen played squarely into the hands of the liquorites, and they haven't sense enough to see it. Really, it looks very much like the money to make the fight was furnished by the whisky men, as they are the only ones who have profited by its abolition.

THE ACCOMMODATING THIEF.

Judge Landis of the United States District Court, who recently decided that the Zion City funds belonged to the Zionists and not to Dowie himself, told at a dinner in Chicago a good story about a New York detective, says an exchange.

"This detective," he said, "came to Chicago to trace out a crime that the Chicago police had had trouble with. He thought he would succeed easily, but as a matter of fact he failed, though his failure has nothing to do with my story."

"My story concerns the boarding house that the detective put up at. As he came towards the boarding house one evening, worn out with a hard and fruitless day's work hunting clues, he saw a man emerge from the place cautiously, with a great bundle of coats, overcoats and trousers on his back.

"This man was a thief, though the detective did not know it. Still he suspected something, and he said,

"What have you there?"

"Clothes to be pressed, sir," the thief answered. "I'm from the tailor's on the next block."

"Ah, I see," said the detective. "Take my overcoat, too."

"Certainly, sir," said the accommodating thief, and he took it and hurried off."

All differences existing between the coal operators and Union miners of Illinois have been settled. The contention was the fine of \$500,000 which the operators wanted the workers to pay because they refused to work on Virgen Day, October 12th, the anniversary of the riots at that place in 1898. After a lengthy discussion the operators decided not to impose the fine.

A French physician has invented a method by which he says iron can be given in large doses. Hens, he noticed, have powerful internal organs. They can digest considerable quantities of iron, and then render it back, through the albumen of their eggs, in a form which is easily digested by the weaker stomach of mankind. So he feeds his hens with what he calls "a very absorbent salt of iron," mingled with grains of wheat, and they lay eggs extremely rich in iron already digested.

Some one has figured that the American hen each year earns enough to buy all the silver and gold dug out of the mines, all the sheep in the country and their wool, and leave a balance equal to the entire year's crop of rye, barley, buckwheat and potatoes. Or, as a hen enthusiast writes, "she pays the interest on all the farm mortgages, pays the entire state and county taxes of the whole Union, and then leaves a balance large enough to give every man, woman and child in the United States a dollar."

SKETCH OF THE LIFE OF LYDIA E. PINKHAM

And a True Story of How the Vegetable Compound Had Its Birth and How the "Panic of '73" Caused It to be Offered for Public Sale in Drug Stores.

This remarkable woman, whose maiden name was Estes, was born in Lynn, Mass., February 9th, 1819, coming from a good old Quaker family. For some years she taught school, and became known as a woman of an alert

restore the family fortune. They argued that the medicine which was so good for their woman friends and neighbors was equally good for the women of the whole world.

The Pinkhams had no money, and little credit. Their first laboratory was the kitchen, where roots and herbs were steeped on the stove, gradually filling a gross of bottles. Then came the question of selling it, for always before they had given it away freely. They hired a job printer to run off some pamphlets setting forth the merits of the medicine, now called Lydia E. Pinkham's Vegetable Compound, and these were distributed by the Pinkham sons in Boston, New York, and Brooklyn.

The wonderful curative properties of the medicine were, to a great extent, self-advertising, for whoever used it recommended it to others, and the demand gradually increased.

In 1877, by combined efforts the family had saved enough money to commence newspaper advertising and from that time the growth and success of the enterprise were assured, until today Lydia E. Pinkham and her Vegetable Compound have become household words everywhere, and many tons of roots and herbs are used annually in its manufacture.

Lydia E. Pinkham herself did not live to see the great success of this work. She passed to her reward years ago, but not till she had provided means for continuing her work as effectively as she could have done it herself.

During her long and eventful experience she was ever methodical in her work and she was always careful to preserve a record of every case that came to her attention. The case of every sick woman who applied to her for advice—and there were thousands—received careful study, and the details, including symptoms, treatment and results were recorded for future reference, and to-day these records, together with hundreds of thousands made since, are available to sick women the world over, and represent a vast collaboration of information regarding the treatment of woman's ills, which for authenticity and accuracy can hardly be equaled in any library in the world.

With Lydia E. Pinkham worked her daughter-in-law, the present Mrs. Pinkham. She was carefully instructed in all her hard-won knowledge, and for years she assisted her in her vast correspondence.

To her hands naturally fell the direction of the work when its original founder passed away. For nearly twenty-five years she has continued it, and nothing in the work shows when the first Lydia E. Pinkham dropped her pen, and the present Mrs. Pinkham, now the mother of a large family, took it up. With women assistants, some as capable as herself, the present Mrs. Pinkham continues this great work, and probably from the office of no other person have so many women been advised how to regain health. Sick women, this advice is "Yours for Health" freely given if you only write to ask of income had to be found.

At this point Lydia E. Pinkham's Vegetable Compound was made known to the world.

Two years ago it was purchased by the Harvard College Observatory, which proceeded at once to mount it on the observatory grounds at Cambridge.

It is known that on the 17th day of September, 1905, an information was filed in the District Court of the United States for the Eastern District of Kentucky by J. H. Tinsley, U. S. Attorney, against 128 packages of distilled spirits, &c., 128 packages of rectified spirit, 15 packages of brandy, 36 packages of rectified spirit, 15 packages of claret wine, 7 packages of wine, 14 cases (1 dozen quarts each) of whisky, 4 cases (4 dozen 1/2 pint each) of whisky, 2 3-gallon jugs of whisky, 3 2-gallon jugs of whisky, 8 1-gallon jugs of whisky, 19 1-gallon bottles of whisky, 96 pint bottles of whisky, 1 dozen 1/2 pint whisky, 3 cases of claret wine, 1 case of catwha wine, 8 cases of scuppernong wine, 1 case Scotch whisky, 3 cases French whisky, 1 case absinthe liqueur, 450 cases (54 gross each) of 14 ounce bottles, 172 cases (1/4 gross each) of 20 ounce bottles, 28 cases (clipped stamp) of 1-gallon jugs, 201 1-gallon jugs, 10 1/2 gallon jugs, 200 1-gallon jugs, 10 1/2 gallon jugs, 218 empty barrels, 7 empty half barrels, 16 10-gallon kegs, and all of the apparel, property, and furniture which said goods and property were seized by the Collector of Internal Revenue of the Seventh Collection District of Kentucky on and about August 27th, 1905, found in the wholesale and retail liquor dealers' establishment of Poyntz Bros. at Maysville, Ky., as being forfeited to the United States for violation of the laws more fully set out in said information, and paying judgment of forfeiture and sale thereof.

This is to give notice to all claimants and persons interested in said property that the masters and trustees of the same will be informed of the sale and said case is set down for trial at the U. S. ONE COPY—ONE CENT.

Almost \$100,000,000 has been expended in the construction of new buildings in the Greater San Francisco since the day, six months ago, the city was laid in ruins.

Louis G. Hampton, Assistant Secretary of the United States Trust Company of New York, shot and killed Victoria L. Taczkow, a beautiful young woman, in the Hotel Griffon and then committed suicide. He was 60, with wife and two children; she was 29.

It is announced at the Postoffice Department that hereafter the delivery of mail by rural carriers will be permitted to persons residing not less than one-quarter of a mile from Postoffices at unincorporated towns or villages, provided such persons will erect boxes on rural routes.

A serious scheme to build a railway almost to the summit of the Mont Blanc range has been prepared by a Swiss syndicate, and has received the approval of the French Government. The projected railway will provide "the greatest thrill on earth," taking passengers to the roof of Europe.

As a result of continued depredations by small bands in Santa Clara province, Brigadier General Bell has ordered the Fifteenth Cavalry to occupy Santa Clara, Esperanza, Cienfuegos, Cruces and Santo Domingo, taking the places of the Cuban rural guard garrisons, which will then be released to pursue the marauders.

The Government has prepared a suit, which probably will be filed at St. Louis within the next two weeks, seeking the dissolution of the Standard Oil Company, as a monopolistic combine and in restraint of trade. The proceedings will be similar in nature to those which forced the abandonment of the Northern Securities Company.

HERE AT HOME.

Maysville Citizens Gladly Testify and Confidently Recommend Doan's Kidney Pills.

The candle still holds its own, notwithstanding petroleum, gas and electricity. The production of candles in the United States during the fiscal year of 1906 amounted to \$3,889,362.

It is testimony like the following that has placed "the old Quaker Remedy" so far above competitors. When people right here at home raise their voice in praise there is no room left for doubt. Read the public statement of a Maysville citizen:

Henry Bertram, shoemaker, of 27 East Third street, Maysville, Ky., says:

"I believe everybody in Maysville has read in the papers the testimony I gave in March, 1900, about Doan's Kidney Pills, for I have been asked again and again by residents of this town if that statement were true. For the benefit of persons who may now be suffering from forms of kidney trouble I repeat my testimony. Before I got Doan's Kidney Pills I had suffered for some time with backache and a tired feeling and having aching in and about the kidneys. Being a shoemaker I thought my trouble was caused by my work, for every time I took a cold it settled in my back, but Doan's Kidney Pills quickly rid me of the trouble, and never from that time to this have I had any cause to complain of my back or kidneys. Doan's Kidney Pills perform exactly what they promise, and to be honest with you, I will say that in my opinion there is no remedy for kidney disorders equal to Doan's Kidney Pills."
